WELCOME TO CELSI

At Celsi we know how important it is to create a stylish and relaxing living environment. That's why we've developed this collection of premium electric fires.

I believe our success stems from a combination of innovative design, investment in technology and the highest quality manufacturing standards. As a result all Celsi heaters carry a 2 year guarantee* to reflect my belief in their quality and durability.

This brochure has been designed to make the purchase of your new Celsi heater as simple as possible. I hope you find it both informative and inspiring.

Michael Jones

THERE IS NO MORE VERSATILE FUEL FOR HOME HEATING THAN ELECTRICITY

With a range that includes beautifully crafted fireplace suites, highly chic wall mounted 'hang-on-the-wall' fires as well as classically designed hearth mounted fires and contemporary stoves, there is a Celsi design to suit any home.

Best of all you are free to enjoy any of these fantastic heating appliances in any room in your home simply by plugging into the nearest mains socket.

A Celsi electric fire will be the heart of your home all year round. Every fire in the range has a 'flame picture' only setting. Unlike gas or solid fuel fires, this allows you to enjoy an atmospheric glow even when it is too warm to turn on the heat.

If you would like to learn more about the many benefits of owning a Celsi electric fire please sit back and take a few minutes to look through the fantastic range of appliances.

We are confident you are getting a product that is built to last. That's why we offer a 2 Year Guarantee* on all Celsi electric fires.

**Only applicable to electric fire engines. Fire Surrounds and fascias are subject to 12 months guarantee.*

CELSI
...the future of fire

PURAFLEAME® & PURASTOVE®

Combining style with innovation, the Puraflame® range of electric fires is the ultimate in high technology, and gives you the most convincing real fire effect available today.

A Puraflame® electric heater is extremely versatile and creates a breath taking feature virtually anywhere in your home, from your lounge to your bedroom Using LCD technology Puraflame® is the only electric fire to give you a choice of three flame pictures plus the astonishing look and sound of a real fire, combined with exceptional functionality. At the touch of a button you can control your room temperature, flame picture, flame speed, volume and brightness.

In addition to stunning 'hang-on-the-wall' models and hearth inset designs the Puraflame range includes the Purastove® LCD free-standing electric stove with steel body, a contemporary glass fascia and state-of-the-art technology to create a highly realistic fire effect.

Celsi Puraflame® is not just a fireplace.
It's an experience.

Shhhh... Listen...

PURAFLEAME® is the
quietest fire available
on the market

**flame only' setting

CELSI PURAFLAME® & PURASTOVE® THE MOST FUNCTIONAL ELECTRIC FIRES & STOVES ON THE MARKET

FLAME PICTURES

Celsi has patented some of the most advanced technologies to create the most sophisticated and realistic fire effect in the world. Every Puraflame fire has been designed to give the appearance of outstanding depth along with an amazing 3D effect, and comes with a selection of real fire effects to choose from.

SMOULDERING LOG
Available on all models

BLAZING LOG
Available on all models

FLAMING COAL
Available on Puraflame Curved & Panoramic & Purastove models

GLOWING COAL
Available on Puraflame Camber & Puraflame Oxford

FLAME SPEED

You may prefer a slow and calming flame or a quick and spellbinding flicker. With a choice of 5 flame speeds you can speed up or slow down each of the real fire movies.

FIRE VOLUME

There's nothing more soothing than the authentic crackle of a real log fire. Lower the volume for a more subtle result or crank it up for full effect. There is also a mute button to silence the sound effect when you need to. When on 'flame only' setting, Puraflame is the quietest fire on the market.

MOOD LIGHTING

The mood lighting feature creates a calming ambience around the heater. A choice of 3 LED colours: white, amber and blue, lets you highlight the fire to suit your mood. This is only available on the Curved and Panoramic models and can be turned off if not required.

WHITE

BLUE

AMBER

OFF

PICTURE BRIGHTNESS

Natural daylight or artificial lamplight can have a big impact on how you see the flame picture. We have included this brightness function to allow you the option to increase or dim the LCD screen brightness to suit you and your environment.

SLEEP TIMER

An extremely practical function. The sleep timer can be used to automatically turn the heater to standby mode after a predetermined amount of time. Great if you want to doze off and not worry about turning the fire off once you have fallen asleep. The timer can be set for up to a maximum of 4 hours in 30 minute intervals and once this time has elapsed the appliance will automatically go into standby.

TEMPERATURE

The fan heater can be operated in manual or automatic mode. When in manual mode you can use the heat button on the remote handset to select low heat, high heat or heat off.

To eliminate the hassle of constantly manually adjusting the heat output, every Puraflame fire features a state-of-the-art, digitally controlled thermostat. Use the temperature function to turn on automatic heat mode. You can pre-select your comfort level and the heater will automatically adjust between high heat and off, maintaining the room temperature you have selected.

FUNCTIONALITY AT YOUR FINGERTIPS

PURAFLEME PANORAMIC with blazing log flame picture

PURAFLEME PANORAMIC

- 3 Realistic Flame Movies
- 5 Flame Speed settings
- Real Fire Sounds with 5 volume levels
- Up to 2kW heat output
- Programmable Thermostatic Heat Control
- Mood Lighting with choice of 3 LED colours
- Sleep Timer with 9 settings
- Adjustable LCD screen brightness
- Stylish black glass fascia
- One of the quietest fires available on flame only setting
- 2 Year Guarantee

ULTIFLAME® VR RANGE

Ultiflame VR fires use innovative technology to create a Virtual flame – Real fire experience through 3-Dimensional visual depth, and realistic flame movements. The deep fuel bed has supremely detailed ceramics that capture the authentic shape and texture of natural logs, placed over a perception of hot crystal embers.

In this range you will discover a variety of tasteful wall inset and hearth inset fires, along with stunning feature fireplaces in Portuguese Limestone, that are suitable for installation into a standard cavity wall. For simple 'place down and plug in' fireplaces, see our range of premier quality MDF free-standing Electric Suites.

At the touch of a button, Ultiflame VR Electric Fires will stimulate your senses with a captivating visual flame display, whilst enjoying and relaxing in the comfortable warmth of a Virtual-Reality open fire experience.

Celsi Ultiflame® VR Virtual Reality 3D fire alternative.

ULTIFLAME VR CONTEMPORARY in Silver

ELECTRIFLAME®XD & ELECTRISTOVE XD

The Celsi Electrifiame XD Range uses improved technology to create a stunning extra deep fuel bed and high definition flame picture. Sit back and relax as the vibrant 3D flame effect, smouldering fuel bed and soothing heat output creates an atmospheric and highly realistic experience.

XD Flame effect
Wall mounted fires
Free-standing stoves

Electrifiame XD comes with two heat levels and a variable flame dimmer with a new random glow fuel bed setting. All this can be operated via the remote control handset or using the manual controls on the appliance.

In addition to impressive 'hang-on-the-wall' and hearth inset Electrifiame XD designs, this state-of-the-art technology also expands into our free-standing Electrirstove XD range with steel bodies, contemporary glass door, or metal door finish. Both models creating a highly realistic stove fire effect.

XD Flame effect with log ceramics
Hearth inset fires

- Curved black glass fascia

Installation Type	Wall mounted only
Heat Output – High	2kW
Heat Output – Low	1kW
Safety	Thermal cut out
Remote Control	Yes

Dimensions mm

Please note: When installed there must be a minimum distance of 400mm between the bottom of the fire and the floor.

ELECTRIFLAME XD CURVED BLACK GLASS

- Advanced 3D technology to create an extra deep flame effect
- Relaxing, smoky full depth flame effect
- Low cost, high efficiency LED lighting
- Variable flame dimmer with four settings
- Two heat levels and a flame effect only option
- Operated via remote control handset or manual controls
- Optional random glow fuel bed setting

Installation Type	Wall mounted only
Heat Output – High	1.8kW
Heat Output – Low	0.9kW
Safety	Thermal cut out
Remote Control	Yes

Dimensions mm

Please note: When installed there must be a minimum distance of 400mm between the bottom of the fire and the floor.

ELECTRIFLAME XD BLACK GLASS

- Advanced 3D technology
- Relaxing, smoky full depth flame effect
- Low cost, high efficiency LED lighting
- Variable flame dimmer with four settings
- Two heat levels and a flame effect only option
- Operated via remote control handset or manual controls
- Includes an easy fixing wall plate for trouble free installation
- Available in two sizes
- Black glass fascia

Installation Type	Wall mounted only
Heat Output – High	1.8kW
Heat Output – Low	0.9kW
Safety	Thermal cut out
Remote Control	Yes

Dimensions mm

Please note: When installed there must be a minimum distance of 400mm between the bottom of the fire and the floor.

ELECTRIFLAME XD PRESTIGE

- Advanced 3D technology
- Relaxing, smoky full depth flame effect
- Low cost, high efficiency LED lighting
- Variable flame dimmer with four settings
- Two heat levels and a flame effect only option
- Operated via remote control handset or manual controls
- Includes an easy fixing wall plate for trouble free installation
- Natural stone fascia

Installation Type	Wall mounted only
Heat Output – High	1.8kW
Heat Output – Low	0.9kW
Safety	Thermal cut out
Remote Control	Yes

Dimensions mm

Please note: When installed there must be a minimum distance of 400mm between the bottom of the fire and the floor.

FLAMONIK, TOUCHFLAME & ACCENT

Inspired electric flame effect technologies.

FLAMONIK

Celsi Flamonik 'hang-on-the-wall' models provide a distinctive and mesmerising flame picture, whilst creating the perfect atmosphere to suit your mood with optional LED glow lighting and colour changing fuel bed. There are two Flamonik fuel bed alternatives: Enchant features a relaxing natural flame motion and realistic log fuel bed, whilst the Rapture presents a striking flame pattern with a glowing coal ember bed.

TOUCHFLAME

The Celsi Touchflame electric fire features a fully functional touchscreen control panel built-in to the product fascia. Features include flame speed control, fixed colour control for flame and fuel bed options, and dynamic mode for automatic random changing colour displays.

ACCENT

Celsi Accent electric fires use ribbon flame technology to create a beautiful flame effect with a comforting under bed glow.

FLAMONIK RAPTURE

- Black flat glass fascia
- Striking dancing flame effect
- Low cost, high efficiency LED lighting
- Colour changing back light with 4 settings
- Colour changing fuel bed with 4 settings
- Two heat settings up to 1.8kW

Installation Type	Wall mounted only
Heat Output – High	1.8kW
Heat Output – Low	0.9kW
Safety	Thermal cut out
Remote Control	Yes
Mood Lighting	Yes

DISCLAIMER

Our policy is one of constant development and improvement. We therefore reserve the right to revise designs and specifications of our products without formal notice, patents pending. We always recommend our products be viewed in an approved showroom before purchase. Whilst we have taken every care in the preparation of this brochure it is not intended to replace the installation manual which provides more detailed information.

Photography is for illustration purposes only and although every effort has been made to ensure accurate reproduction of typical installations and flame pictures they may vary according to fire model and flue types.

We accept no liability for any loss or damage arising directly or indirectly from the use of this brochure.

We recommend that all our fires are used in conjunction with central heating and not as a primary source of heat.

In the interests of personal safety a suitable fireguard is recommended when children, the elderly and the infirm are present. (This brochure is copyright 2018 and must not be reproduced in whole or in any part without prior written permission).

We would like to thank OER Fireplaces (01782 319350) for supplying the fire surrounds used in this brochure.
