

NATURA

FIREPLACES

Here at Natura we have been manufacturing fireplaces for almost 100 years. Established in 1923, from our humble beginnings as a traditional tiled fireplace manufacturer, we now have a state of the art factory producing high quality fireplaces and stone surfaces to suit almost all projects and budgets.

Using only the finest natural and man made materials, carefully selected from around the world, we take the utmost pride in bringing you an extensive range of fireplace designs to suit your needs.

In manufacturing our own products here in the UK, most of our fireplace designs can be tailor made to any size and in any colour from the range. We can even manufacture to your own design and specification. This brochure is just a taste of what we can offer.

Grace	18	Pimlico	24		

OUR OWN PRODUCTION FACILITY IN THE HEART OF YORKSHIRE

We are proud of our very own high-tech workshop that gives us the ability to create, customise and design fireplaces to fit your requirements.

With so many large high-tech machines, together with our experienced craftsmen, office staff and our recognised high level of service, there's no wonder that customers choose us to help with their projects.

If it can be made out of a natural material, we can make it. How about quartz cladding for a shower or a natural granite table for a dining room, or maybe even quartz overlay to bring an old desk back to life? We can help with all of that.

We take multiple deliveries each week of materials from around the world so you can always be sure you're getting the best product.

MADE *to* MEASURE

Here at Natura our aim is to offer you a wide variety of design options, giving you the flexibility to make your fireplace individual to you.

Whether that be increasing the size, adding contrasting slips or even changing the profile edges, you can tailor the design to suit your needs.

The designing doesn't stop there. Each of our fireplaces can be adapted to fit any fire, should you chose a standard gas or electric fire, glass fronted gas fire or stove and chamber, any of our fireplaces will make the perfect frame for your fire.

Whatever your vision, Natura can make it a reality.
